184	9/19/80	I ended last week's article with a mention of Supervisor Winston's chiding remarks about rural residents not paying their fair share for county services. A voice of support to Mr. Winston's jibes was raised by Supervisor Hilda Wheeler who chimed in with a report of Los Angeles City (I believe) seeing L.A. County having to pay double for police protection since some city tax money apparently went to support the County Sheriff. <u>Howard A. Clark</u>	(1) Rock House Restaurant. 187	10/10/80	<u>Of Plaques & Monuments</u> By: Howard Clark As was mentioned to me before, the year's jostling at the county trough would be between law enforcement and libraries. Sort of badges vs. books. Or, perhaps better put, citizen safety as opposed to monuments and bronze plaques. This very day, the (County) Board is in the process of hiring a financial consulting firm for between \$25,000.00 and \$40,000.00 to help them hatch a plan to raise the funds for their latest erections by putting out a bond offering. 239	10/30/81	<p><u>Fire Station News</u> -- by Ray Hendricks Lief Steinberger did a beautiful job digging the hole for the septic tank at the new fire station. How can digging a hole be described as beautiful? Well, when a backhoe can be operated to dig a hole about 6 ft. by 10 feet and 8 feet deep with all sides perfectly smooth and plumb, and the floor level --- the description is appropriate. The septic tank, a 1000 gallon, 8000 lb. monster, was lowered in without any problems and fit perfectly.</p>	<p>(1) <u>D O N ' T F O R G E T</u> The Pancake Breakfast put on by the Golden Feather Fire Company ... at Concow School, off Highway 70. 240	11/6/81	<p><u>Fire Station News</u> -- by Ray Hendricks "It never rains but it pours" -- that old saying implies a world of truth and after the last rainstorm our Fire Company can vouch for it. The good job of setting the septic tank in place turned out to be a disaster after the downpour. The tank floated like a boat in the pit, tilted on about a 30 degree angle to the port side, filled with water and sank in that position. What a mess! 242	11/20/81	<p><u>Friday the 13th - Feather River Canyon.</u> By Sally Lewand. After hunting and camping in Montana for a month, we decided to head home. We didn't hit rain until Beckworth Pass. Just past Injun Jim School we hit wind. Around the bend at Rock Creek Reservoir we were stopped by wind, rain, rocks and branches flying directly at us. We turned on the C.B. and got the truck and trailer we'd passed at Rock Creek. He was sitting with 2 busted headlights and cracked windshield, AND his trailer had been on its side a few hours earlier! He hadn't decided NOT to try to get out, but while talking to us, he watched a truck and camper blow off the road and into the river.</p>	<p>(1) Nimshew Hill has moved to Concow. 252	2/26/82	<p>Fees - A Form of Uncontrolled Taxes: Ray Hendricks It sometimes seems as though we must be more on the lookout for what our elected officials are doing <u>to us</u>, then what we elected them to do <u>for us</u>. The folks in the Golden Feather community have been alert to what is going on in our County government, and have taken positive action to avoid unwise regulatory practices, unfair imposition of fees and taxes, and especially, the wasteful spending of public funds. One more fee schedule "rip-off" has appeared and it may be the forerunner of a host of new regulations. 253	3/5/82	<p><u>Fire Protection Tax</u> - Ray Hendricks It was pointed out in The Golden Feather Volunteer Fire Co. annual report for 1981, that our County Supervisors were seriously considering a special tax, or Assessment District Fees for fire protection. According to information released now, a basic fee would be applied to all properties in the unincorporated areas. Then a second fee would be charged based on the square foot size, the use, and the potential fire hazard of each parcel. 264	5/21/82	<p><u>Travel Notes</u> -- by Ray Hendricks In the 1860's and 1870's, the "boom and bust" mining era at Death Valley attracted my people and new towns came into being. Among them, but all in ruins now, are Panamint City, Chloride, Keane Wonder, Bullfrog, Rhyolite, Greenwater and Skidoo. Then in the 1880's, borax, the "white gold of the desert" was profitably mined. The Eagle Borax Works, operating successfully from 1883 to 1887, closed because more valuable deposits were found closer to the railhead in Mojave. Thus the 165 mile transport by mule team became unnecessary and another colorful chapter in our history of the west came to a close.</p>	<p>(1) Grandview Café wishes to announce that we will be closed on Wednesday & Thursdays. 267	6/11/82	<p><u>Travel Notes</u> -- by Ray Hendricks A visit to Death Valley is not complete without a visit to Scotty's Castle and the Death Valley Ranch. There is an abundance of water here despite the barrenness of the hills. A six inch water main from a 44,000 gallon reservoir having a pressure of 95 lbs per square inch, was laid in Grapevine Canyon. The water was used to power a Pelton water wheel turbine to generate electric power. The water then flowed throughout the grounds of the castle complex, and, when completed, would have also filled a 260 ft. long swimming pool.</p>	<p>(1) Rock House Thursday Special.
